Sam **Zorowitz**

Clinical biostatistician at the National Institutes of Mental Health

Porter Neuroscience Building, National Institutes of Health, Bethesda, MD

szorowi1@gmail.com | szorowi1.github.io | szorowi1 | sam zorowitz

Research Experience

National Institutes of Mental Health — *Bethesda, MD*

Clinical biostatistician — *Aug. 2023 - Present*

- Lead the design and analysis of human behavioral research in the Unit on the Neural Computations in Learning.
- Utilize computerized adaptive testing to design reliable assessments of cognitive ability that are personalized to each study participant.
- Develop Bayesian statistical models to jointly analyze multiple streams of experimental data including behavior, self-report, and sensor time series data.
- Collaborate with other members of the NIH intramural research program including other data scientists, machine learning engineers, clinicians, and animal researchers.

Princeton University — *Princeton, NJ*

PhD in Cognitive Neuroscience — *Sep. 2017 - Aug. 2023*

- Designed and validated reliable battery of digital assessments of learning & decision-making for use in clinical phenotyping and in tracking changes in cognition during clinical trials.
- Used item response models (graded response model, MIMIC models) to evaluate and validate survey measures of internalizing disorder symptoms and experiences with childhood maltreatment.
- Applied Bayesian additive multilevel item structure models to calibrate and validate a novel measure of executive functioning in adult samples.
- Summarized and communicated analysis results in manuscripts and in presentations to diverse audiences including engineers, clinicians, patients, and other stakeholders.

Massachusetts General Hospital / Harvard Medical School — *Boston, MA*

Clinical Research Coordinator — *Jun. 2014 - Jun. 2017*

- Lead analyst in clinical study of severely depressed patients wherein I performed nonparametric time series regression to uncover neural origins of cognitive control deficits.
- Developed hierarchical Bayesian models to produce quantitative indicators of approach/avoidance behaviors for use in neuroimaging analyses.
- Extended Bayesian state space models to measure sudden changes in performance in clinical assays of executive functioning.

Skills

Quantitative	Bayesian data analysis, generalized linear models, time series analysis, item response models, structural equation models
Programming	Python, R, Julia, SQL, HTML, JavaScript, CSS, Bash
Software	Stan, JAGS, lavaan, blavaan, psych, Jax, Pytorch, jsPsych

Education

Princeton University — *Princeton, NJ*

PhD in Cognitive Neuroscience — *Sep. 2017 - Aug. 2023*

- Advisors: Yael Niv, Nathaniel Daw
- Dissertation: The Factor Structure of Reinforcement Learning Behaviors
- Supported by a National Science Foundation Graduate Research Fellowship

Johns Hopkins University — *Baltimore, MD*

BA in Psychological & Brain Sciences — *Sep. 2010 - May 2014*

- Phi Beta Kappa, General University Honors

Zorowitz, S., Franklin, R., Kunwar, P. S., Greve, D. N., Block, S., Moran, L. R., Schwartz, C. E. (2016). A High-reactive Temperamental Profile in 4 Month-Old Infants Predicts Reduced Amygdala Volume and Increased Amygdala Reactivity in Adults. Poster presented at the Society of Biological Psychiatry, Atlanta, GA.

Widge, A. S., **Zorowitz, S.**, Tang, W., Miller, E. K., Deckersbach, T., & Dougherty, D. D. (2015). Behavioral and neural biomarkers of improved top-down control mediate clinical response to ventral capsule/ventral striatum deep brain stimulation in major depression. Poster presented at the Society of Biological Psychiatry, Toronto, Canada.

Invited Talks

2023 **National Institute of Mental Health**, Data Science and Sharing Team (Oct 2023)
2023 **University of Tokyo**, IRCN science salon (September 2023)
2023 **Tel Aviv University**, Workshop for online neuroscience experiments (May 2023)
2023 **National Institute of Mental Health**, Neural Computations in Learning Lab meeting (March 2023)
2022 **McGill University**, Psychiatric epidemiology journal club (October 2022)
2022 **Yale University**, Rutledge Lab meeting (June 2022)
2022 **Alena**, Science team meeting (May 2022)
2021 **University of Cambridge**, Blakemore Lab meeting (December 2021)
2021 **University of Amsterdam**, Theory Construction Lab meeting (October 2021)
2021 **Princeton University**, Parallel Distributed Processes meeting (March 2021)
2021 **Transcontinental Computational Psychiatry Workgroup**, (March 2021)

Mentoring

2023 **Esha Dadbhawala**, Postbaccalaureate research at National Institute of Mental Health
2023 **Ashley Lo**, Postbaccalaureate research at National Institute of Mental Health
2023 **Allison Yang**, Junior project and senior thesis at Princeton University (co-advised with Nathaniel Daw)
2022 **Jen No**, Junior project and senior thesis at Princeton University (co-advised with Laura Bustamante)
2020 **Kiersten Marr**, Junior project and senior thesis at Princeton University
2020 **Livia Qoshe**, Junior project and senior thesis at Princeton University
2020 **Isabel Zaller**, Independent work at Princeton University
2020 **Natalie Paredes**, Summer internship at Princeton University
2017 **Katherine Link**, Summer internship at Harvard Medical School
