

Samuel Zorowitz, PhD

Clinical Biostatistician

szorowi1@gmail.com • szorowi1.github.io • Washington, DC

Summary

I am a clinical biostatistician with nearly a decade of experience in designing and executing studies of patient mental health outcomes and digital psychiatry. My research centers on the development and validation of measures of patient outcomes using statistical methods such as cognitive modeling and item response theory.

Education

Princeton University

Princeton, NJ

PhD in Computational Neuroscience

Sep. 2017 - Aug. 2023

- Advisors: Yael Niv, Nathaniel Daw
- Dissertation: The Factor Structure of Reinforcement Learning Behaviors
- Supported by a National Science Foundation Graduate Research Fellowship

Johns Hopkins University

Baltimore, MD

BA in Psychological & Brain Sciences

Sep. 2010 - May 2014

- Phi Beta Kappa, General University Honors

Skills

Quantitative Bayesian data analysis, generalized & hierarchical linear models, time series analysis, factor analysis, item response theory, structural equation models, computerized adaptive testing, cognitive modeling, reinforcement learning, optimal experiment design

Programming Python, R, Julia, SQL, HTML, JavaScript, CSS, Bash

Software Stan, R{lavaan}, R{psych}, Python{Scikit-learn}, Python{Jax}, Python{Pytorch}, MS Office Suite

Research Experience

National Institute of Mental Health

Bethesda, MD

Clinical biostatistician

Aug. 2023 - Present

- Lead the design and analysis of human subjects research in an interdisciplinary clinical neuroscience group.
- Design optimized digital assessments of patient health outcomes (e.g., cognition, mental health) using computerized adaptive testing and optimal experiment design.
- Develop novel Bayesian models to jointly analyze multiple streams of data including behavior, questionnaire, and sensor time series data.
- Collaborate with, and provide statistical consultations to, other members of the NIH research program.
- Supervise and mentor multiple research assistants.

Princeton University

Princeton, NJ

Doctoral researcher

Sep. 2017 - Aug. 2023

- Designed questionnaire measures of internalizing disorders (e.g., depression, generalized anxiety) and adverse childhood experiences using item response theory (i.e., bifactor models, MIMIC models).
- Designed a battery of digital assessments of cognition (e.g., executive functioning, decision-making) and

led multiple research studies to validate their use for psychiatric phenotyping and clinical trials.

- Developed novel Bayesian multilevel item structure models to calibrate and validate a novel assessment of executive functioning in adults.
- Summarized and communicated study results in articles published in refereed journals, professional meetings, and presentations to diverse audiences including funding agencies and other stakeholders.
- Supervised and mentored multiple research assistants, study coordinators, and junior graduate students.

Massachusetts General Hospital / Harvard Medical School

Boston, MA

Clinical research coordinator

Jun. 2014 - Jun. 2017

- Evaluated behavioral predictors of severe depression-remission after treatment with deep brain stimulation using nonparametric time series regression.
- Developed hierarchical Bayesian models to quantify patient anxious-avoidance behaviors for use in clinical trials of deep brain stimulation for psychiatric disorders.
- Prepared sections of biweekly progress reports and presentations for government funding agencies (DARPA) and military stakeholders.

Invited Talks

- 2024 **National Institute of Mental Health**, Neurodevelopmental and Behavioral Phenotyping Service (January 2024)
- 2023 **National Institute of Mental Health**, Data Science and Sharing Team (October 2023)
- 2023 **University of Tokyo**, IRCN science salon (September 2023)
- 2023 **Tel Aviv University**, Workshop for online neuroscience experiments (May 2023)
- 2023 **National Institute of Mental Health**, Neural Computations in Learning Lab meeting (March 2023)
- 2022 **McGill University**, Psychiatric epidemiology journal club (October 2022)
- 2022 **Yale University**, Rutledge Lab meeting (June 2022)
- 2022 **Alena**, Science team meeting (May 2022)
- 2021 **University of Cambridge**, Blakemore Lab meeting (December 2021)
- 2021 **University of Amsterdam**, Theory Construction Lab meeting (October 2021)
- 2021 **Princeton University**, Parallel Distributed Processes meeting (March 2021)
- 2021 **Transcontinental Computational Psychiatry Workgroup**, (March 2021)

Mentoring

- 2024 **Esha Dadbhawala**, Postbaccalaureate research at National Institute of Mental Health
- 2024 **Ashley Lo**, Postbaccalaureate research at National Institute of Mental Health
- 2023 **Gili Karni**, Junior graduate student research at Princeton University
- 2023 **Allison Yang**, Junior project and senior thesis at Princeton University (co-advised with Nathaniel Daw)
- 2022 **Jen No**, Junior project and senior thesis at Princeton University (co-advised with Laura Bustamante)
- 2021 **Branson Byers**, Study coordinator research at Princeton University
- 2021 **Sean Allen**, Study coordinator research at Princeton University
- 2020 **Kiersten Marr**, Junior project and senior thesis at Princeton University
- 2020 **Livia Qoshe**, Junior project and senior thesis at Princeton University
- 2020 **Isabel Zaller**, Independent work at Princeton University
- 2020 **Natalie Paredes**, Summer internship at Princeton University
- 2017 **Katherine Link**, Summer internship at Harvard Medical School
